

Renown Pharmaceuticals Pvt. Ltd.
The Soft Gel Specialist

**Soft Gelatin Manufacturer Of Nutraceuticals,
Therapeutics & Dietary Supplements In INDIA!**

Introduction

Welcome to the world of Renown pharmaceuticals. An organization that understands and adapts according to the industries' and clients' needs. The demand for soft gelatin capsules is ever-increasing and so is the awareness about nutraceuticals among the population. With a specialization in the soft gel manufacturing segment, Renown has created a mark and brought an impact with its unique research-based formulations. Renown has a dedicated soft gel manufacturing facility with the capacity to manufacture 3.5 billion capsules per year.

At Renown, we are dedicated to innovative pharmaceutical contract manufacturing. With more than a decades' experience, we stand proud as we have created an impact with our high-quality research-based formulations and successfully delivered the orders to our clients.

We are specialized in setting the standard of excellence in producing high-quality generic products & food supplements by adding value through superior customer service. Quality and customer satisfaction are our utmost priority. Our integrated quality management system (IQMS) ensures we meet the highest standards at every stage of product development, manufacturing, and distribution.

Maintaining a customer-centric and quality-oriented approach, we have become a reckoned name in our domain and attained excellence in our offered gamut.

Renown Pharmaceuticals Pvt. Ltd. is a company where knowledge is our edge, and sustainability is in our growth and speed. We are the trusted partners of major MNC pharmaceutical companies. Our facility is designed in accordance by keeping in mind the international regulatory requirements and it is **NAFDAC & WHO-GMP** accredited.

VISION

To become the leading research-driven global pharmaceutical and nutraceuticals company with premium quality products.

MISSION

- **Start USA –OTC by mid 2024.**
- **Trigger audit for TGA & EU-GMP.**

Infrastructure

We Have World Class Planetary Mixing & Blister Facilities

Renown Pharmaceutical manufacturing facility is controlled by Siemens building management system. There are three dedicated encapsulation lines with a production capacity of 2 billion capsules a year. The total land of manufacturing premises is 16159 m² & main built up area premise is 7966.369 m².

The primary manufacturing area is joint free epoxy flooring and epoxy coving. Utility services are provided without disturbing the primary manufacturing area through a walkable ceiling of 3 meters in height. Area classification class 1,00,000 is maintained under controlled temperature and humidity.

Service area is independent for HVAC systems. The manufacturing process is solvent free. Other services such as chilled water, electricity, compressed air, generation set etc from the independent block.

Step-by-step guide

Business Model

Renown Pharmaceuticals works on three business models. We offer the following options to our clients:

Contract
Manufacturing

White label/
Private Label

Loan-Licensing

OEM- Contract manufacturing:

As a soft gelatin product development company with 10+ years of experience, we support our clients across the globe in the formulation & development of newer products or brands.

Renown Pharmaceutical offers hassle-free, cost-effective, ready-to-sell products to its clients under contract manufacturing. We take care of the whole production process from material acquisition and documentation to the finished product.

Private Label/ White Label:

Private Label: Renown works on a client-centric approach. We offer full customization on our clients' specifications like the design, ingredients, and/or formulation.

White Label: Renown Pharmaceutical has produced a set of standard formulations with the help of its highly skilled research and development team which we offer under white labels. Our clients can launch a new product in their portfolio with these ready formulations under their brand name.

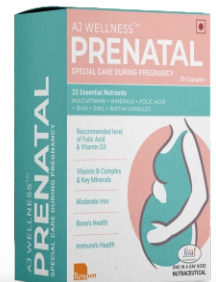

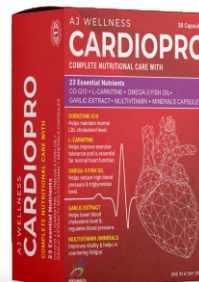

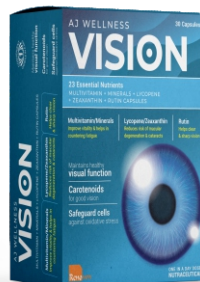

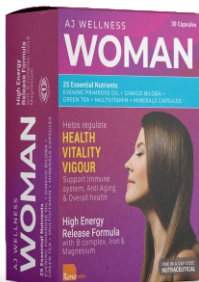

Loan-licensing:

If any pharmaceutical company wants to use our facility to manufacture their product, we provide loan-licensing facility also.

Sustainability:

Renown believes that sustainability can be achieved in business by contributing to and improving the health & well-being of people & by providing quality products. Being a healthcare company, we have always aimed to develop products to prioritize public health. Our product is certified and always one step ahead in terms of competition in the market.

Few of our Business Partners:

Production Facility

QA

The quality management system deals with the approval/authorization, distribution, control, review, and storage. A team of highly skilled professionals undertake the inspection, quality audits, and review of product specification. The team follows test procedures, validation, qualifications, calibration program and environment control.

QC

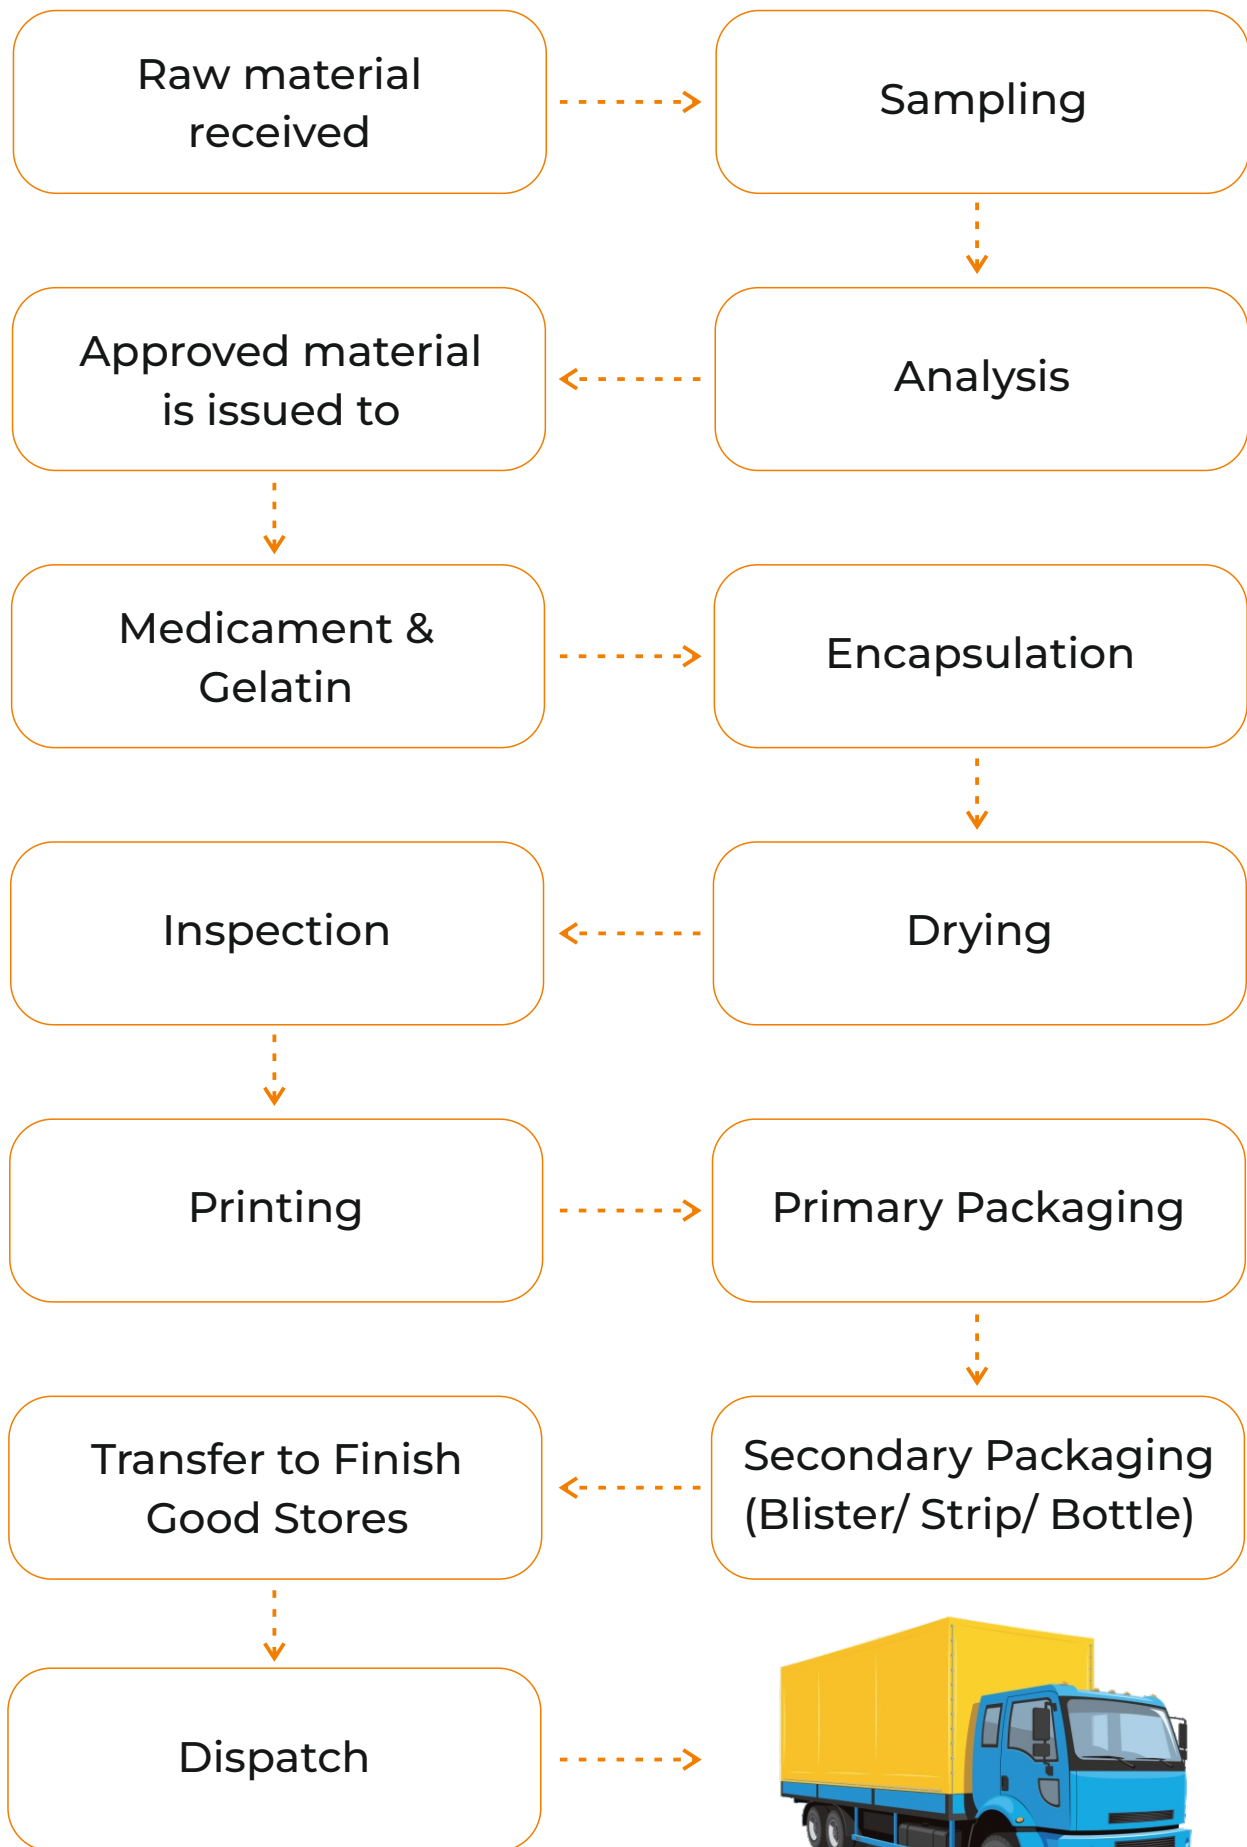

The quality control department is equipped with the most sophisticated testing machinery that ensures the best quality. The product is tested by following the stringent methods mentioned in the pharmacopeia (IP, BP, USP-NF, EP, JP, etc.) at different stages from raw material to in-process to finished goods to ascertain no product recall.

R&D

A dedicated team of highly skilled professionals looks after the research and development of different new formulations such as inhalant capsules, nutraceuticals, enteric-coated, delayed-release, sustained release, and therapeutic products in various dosages forms. Currently, we are planning to launch 80+ products created by our R&D team.

Production Facility
